

Endy Mattress, Chiropractor Approved!

We just purchased a new Endy mattress for our cottage. Now that we are [spending more time there](#) and less time at home, it was time for an upgraded mattress at the lake. After researching our options online, we ordered the mattress and it was delivered to our door (at no extra charge) two days later. We transported it to our cottage easily in the back of our minivan, took it out of the box, and voila, the mattress developed right in front of our eyes.

Who is Endy?

If you have not yet heard of Endy, let me educate you by leading you to [their blog](#). Learn why buying an Endy mattress online might be the way to go for you too. These are just a few of the reasons I was convinced. The fact that they are endorsed by chiropractors helped too.

The comfort level is incredible too. I also love the fact that I get a good night's sleep regardless of how restless my husband sleeps. I used to complain that when he flipped over, I flopped too; I'm hoping the new mattress will lessen the flips and flops. After all, [a good night's sleep](#) is important

for overall health and wellness.

Made in Canada

Of course, I love the fact that these incredibly comfortable, supportive, and convenient mattresses are made right here in Canada. [Shopping local](#) has become increasingly important to many within the past few years, including me.

Accessories to Endy Mattress

[On the Endy website](#), there are many accessories to choose from as well. From bed frames to pillows and sheets, everything you need to complete your new sleeping quarters is at your fingertips.
