

Melaleuca Products: The Power of Nature

I was reminded recently of just why I love Melaleuca products so much. They are not the cheapest on the market, but they are natural, bio-degradable, non-toxic to the environment and the user, as well as allergy friendly. And they work. They work extremely well.

What are Melaleuca Products?

[This video](#) explains the evolution of Melaleuca products as well as how and why they work. It also touches on the business side of the company. If you are interested in becoming a preferred customer (PC) to ensure you get the best prices and other perks, contact me to help you with the process.

I started using them years ago when I finally noticed how my [body reacted to other cleaning products](#) and personal care products.

My Favourite Melaleuca Products

There are tons of products, from make-up to cleaning products with healthy food and drink items, vitamins and supplements too. Here are just a few of my favourites:

Cleaning Products

This post was inspired this morning when I was cleaning the top of my kitchen cupboards prior to decorating them for the Christmas season. Don't judge me, but this is about the only time these cupboard tops get a good cleaning. I am always amazed at how dusty and dirty they get. For this specific task, I choose [Melamagic](#), a heavy-duty cleaner. I also use this miraculous cleaner to wash floors at the cottage and home

and even to get rid of the black gunky stuff in our pedal boat every spring. It comes in liquid form (just add a bit to your bucket of water) or in handy wipes.

[Soluguard](#), concocted from thyme and lemon, is my go-to for spraying door handles, kitchen, and bathroom counters etc. It too comes in liquid or wipes. The wipes are great to keep in your purse for cleaning things you come in contact with outside your home. This was (still is) particularly helpful during our obsession with the Covid-19 virus.

**SOLU-GUARD
BOTANICAL**

2X CONCENTRATE

Disinfectant / Désinfectant

CONCENTRATE / CONCENTRÉ

Kills 99.99% of bacteria and viruses

Détruit 99.99 % des bactéries et virus

INGRÉDIENTS ACTIFS: Acide citrique 4.00 %, Thymol présent

sous forme de composante de l'huile de thym 0.002 %.

**CAUTION / ATTENTION
IRRITANT**

473 mL (16 FL OZ)

U.S. Patent No. 7,817,432; Canadian Patent No. 2,842,221; U.S. Patent No. 7,817,432; Canadian Patent No. 2,842,221

I am also fond of Melaleuca dish soap, dishwasher pods, and laundry soap.

Make-Up and Personal Care Products

Although I don't order the make-up products (I don't use much) I do like their unscented, aluminum-free deodorant and their lip balm. There are many flavours of lip balm to choose from that include protection from the sun. These are perfect for outdoor sports and for those of us that [work outdoors](#). I order lots for stocking stuffers as my whole family (including the men and grandkids) love them.

I'm also stuck on [Renew Body Lotion](#) as a moisturizer that I slather all over, especially after showering and before bedtime. It makes a great make-up remover too, safe for use all over your face, including around your eyes. Renew comes in a few sizes, from purse size (also great for stocking stuffers) to the largest, most economical pump bottle.

Essential Oils

Another category of Melaleuca products I love and order regularly are [essential oils](#). I use them to make my own bug spray, air fresheners, skincare, and more.

Conclusion

If you too are interested in using natural and safe products in your home and on your body, leave me a comment!
